All Critics (92) | Top Critics (31) | Fresh (42) | Rotten (50)

🍅 The climax of Halloween Ends is pure, unabashed, blood-soaked nonsense, culminating in that full-throttle showdown that's been 44 years in the making and promised in the sequel's title.

🍅 Halloween Ends is no more coherent than its predecessors, but at least adds some new elements to the formula.

✳ Better than the last one, but still feels like the work of two totally different directors. And one of those directors is a moron.

London Evening Standard

★ **TOP CRITIC**

A more welcome return to what a Halloween film should both look and feel like. The movie calls back to questions of fate and destiny that have marked the franchise as a whole – of knowing the feeling of evil when you see it (or when it sees you).

Halloween Ends does not thread the needle needed to stitch together the three most recent films, much less provide a suture for almost four-and-a-half decades of canon.

So say this, if nothing else, for Halloween Ends: It truly wants to keep the promise of its title.

🍅 The kind of creative take on the Halloween saga that I envisioned when David Gordon Green and Danny McBride were first announced as the new series runners.

🍅 A surprisingly thoughtful approach to ending Laurie Strode's saga, Will be derided for a decade before new audiences declare it an unsung masterpiece - and what's more "Halloween" than that?

Midwest Film Journal

Filled with baffling creative choices, unearned thematic closure and no terrifying tension, this dreadful dud sputters to its conclusion.

Fresh Fiction

Even if it's not what people are expecting, [Halloween Ends] remains a very effective film that acts as a nice coda to this decades-long story.

Writer/director David Gordon Green adds a few new twists to the familiar formula, yet it feels like a retread.
